My dear Dr. Jackson

Your very kind note
came to hand; I shall be
pleased to do what I can
in the way of assisting to
your people on Mission work
I have attended 150 Mission
meetings this winter & not-
failed to tell our people of
the work taken up & being
done by your people.

I think now I may get
to visit your City, say Sat.
14th May and if I could spend
the day say one service & a s. s.
and a meeting Monday night.
I hope I may get a good
plank or two for my new
Mission St. Boat.

The Board of Home Missions

OF

The Presbyterian Church in the United States of America,

To his Excellency

The President

Hon Chester A. Arthur

Dear Sir

23 Centre Street, New York, April 26 1882

In the Board of Indian Commissioners, composed of one representative from each of the leading religious denominations at work among the Indians, there is a vacancy caused by the resignation of Mr Ezra M. Kingsley, the representative of the Presbyterian Church.

After Consultation with some Members of the Board of Indian Commissioners, we the Undersigned officers of the Board of Home Missions of the Presbyterian Church in the United States, would respectfully request you to appoint Darwin R James Esq, of Brooklyn, N.Y. in place of Mr. E. My dear Sir;

You will learn from others that we are here, tho. we had some delays & perils from floods & equinoctial storms, and plenty of perplexities, our journey was full of interest and we are very thankful to be here safe & well, to find such warm friends, and see so much good has already resulted from their efforts and Christian Prayers & beneficence East. You have in all this some of the reward which comes in this life.

My young expects to go with me to Khydah, perhaps the first of the next week, the snow is very deep but we will go if we can & accomplish anything. I hoped to find some further & definite instructions if not means, for building &c. on arriving here.

The saw-mill is one of the first important essentials - I wrote Mrs. James

hope means may be promptly forthcoming so we can get mill up in time to do some building this summer as we are anxious to have some sort of a house and get to organized work.

I am convinced the mill project is a practical & practicable one & certainly an economic arrangement.

I sent up Sisters recommendations and suppose she will be ready when 't is the pleasure of the Board to send her.

A good report comes to us from the Hydahs. I have seen two of them. They are fine Statwert fellows.

I do not think Alaskans are Indians.

I hope there will be some way to secure the organization of a Pres. for our territory before many months, as it is certainly very important that we may cooperate without going down to Oregon.

In regard to W. M. L. Young, Esq., of Hall, he is an excellent young man faithful, honest a good English scholar I had him in Normal classes, knew him as a Teacher. In the matter of business the difficulties which existed here will not, at the point proposed for him. Capt. Sprague proposes to build him a house and lumber will be convenient and cheap. Hall cannot quite understand why there is any hesitancy about giving Walt. the appointment and I have not yet told him. If Walter comes his wife's Aunt - a widow lady with no family and considerable means, will probably come with them, she is a noble woman with judgment - energy character and executive ability and said to be a first class "manager." She would be, in my judgment a useful woman in this Territory. I am anxious to know the fate of your girls, as I see their

Rev Sheldon Jackson D.D.
Dear Brother,

The steamer City of Chester came in this morning bringing me four letters from you, Feb 21st & 22nd and Feb 26th & 27th. Many thanks for the same. Maj Morris never said a word to me about having received orders to turn over the building you mention. I was told by some of the officers of the Wachusett a few days since of the order. You have received my letters informing you that we were using the stable at present. We have suffered from the cold & Annie has been sick for the past three days, cold & a bilious attack, but I think she is better to night. Have kept the school going. I think we had better stay where we are until we move

into permanent quarters.
We shall probably have warmer
weather than we have had
since we moved into it
until late in the fall, and
it would cost considerable
to fit up the building you
mention, even if we were
in possession. If the Government
would give us that building, and
the house occupied by Col Ball,
& the land between the Ranch
on the west, the lake on the
east, & the block houses on the
south, it might be worth trying
for. Could build a church
back of the Ranch, & fit up
school room & home large
enough to accommodate a
hundred boys. Would it be too
near the Ranch for a home? And
would it be healthy? A large
part of it is built over the
water. Some people here have
said that Japowski Island
would be a good place, a large
farm could be made, the
boys would be separated from
the Ranch, the better class of
Indians might be induced
to build there & would be

under our regulations here,
I don't think many of the children
who now come to the day school
would come there, some days
when we have such severe
winds & storms none could
come. I think many of the Indians
who now attend our sabbath
services might not come, although
they do not mind launching
a canoe much. Now Mr Brady
located a 160 acres of land &
had it surveyed by Lieut A. M.
Symonds, one corner being near
the Barney stone, ^{the line} running
along the beach, say half way
to Indian River & then extending
back towards said river, this
could be obtained from him.

I think Lieut's Symonds & Hamers,
& Col Ball have recorded claims
extending along the beach
from Mr Brady's claim, &
beyond the mouth of Indian
river. I recorded a claim of
160 acres back of the Ranch,
extending from the block houses
in a northerly direction, in
the fall of 1880, intending
to make improvements
the following summer, but

a few, by the name of
Aliska jumped in that
winter while the snow was
two or three feet deep, put up
a small shanty on it & claims
it as a squatter, but he
has not made any improve-
-ments on it since, don't
know whether he could
hold it, or not. I think on
the whole this would be
the best place for our pur-
-poses. Have given you some
of the pros & cons of other
people, & some of my own sug-
-gestions, to guide you in
your deliberations in this
matter, but I think if it
is possible, that you ought
to come here & select a place
& start the buildings this
summer, as this work is
not for a day, but is to go
on long after we have
passed away. I shall com-
-mence to repair the garden

fence which was blown down last winter as soon as the snow goes off so that I can place the posts. Have not received any garden seeds yet, so will send below for some by this steamer. You ask me to let you know our loss in furniture etc. We lost two carpets, cook stove, two sets china & other dishes book case, all our bedsteads one a Chippendale cost me \$35# & another a sort of sofa, cost me \$50# in N.Y. Some bedding very much cheap, six cords of wood, our piano I fear is ruined, part of our parlor furniture badly damaged &c. &c. We are very comfortable, don't need anything. Have more than enough to move around in this place. Losing our cook stove caused us to suffer, not so much on account of our stoves, but

our backs, We would almost freeze in the kitchen while eating. We received our stove this steamer & are happy.

We felt ashamed to think that so much of our furniture was saved, & all the school furniture lost, I was some time in the dormitory saving the boys bedding, & when I came out I found all my family furniture, as they thought I was lost.

I sent below last month & bought some books slates &c. I shall not need much for the next six months.

I should like a Geography if any have been published since the last Census.

Dear Doctor Jackson,

I beg that you will not lose a moment but proceed to Washington without delay, and consult with General Eaton to whom I have dropped a short note today asking his co-operation. You had better show the General this letter so that he can understand the situation. Bosh up you. However will require to read the official correspondence had by me and enclosed to the Secretary of your date herewith.

Strictly enure news. They have sent us a regular Pinafue Captain, who has not been here for six years, and who has been for years on banishment, in New York, had enough his nose against the windings of the Union Club. A regular howling swell, cheeky, foul with Jim Bennett, Jim Keene and that crowd, and to cap the climax

reported to be a nephew of Ben. Butler.

He has the most perfect contempt for the Country and everybody in it, and does not hesitate so publicly to proclaim. He actually contemplated taking his ship away from here and withdrawing his Marine guard, and leaving us without any protection whatever. In the whole thing is so publicly stated in my official correspondence that it is merely surplusage to reiterate it.

His demeanor to me after the receipt of my letter was most offensive, but it was the old story. "You need not shoot Captain Scott I will come down", said the coon to old Martin Scott of the Army. From the time he arrived here he has been abusing the Country and everybody in it. He actually said that hereafter he should lay all things because there was more frequent mail communication. Just think of that, in a Captain

of a man of war sent here to rule these Indians.

He has found fault with many things that Glass has done, for instance the Condemns in toto his system of compulsory education, and it was just as much as I could do to dissuade him from calling the Indians together and publicly proclaiming to them that they need not send their children to school unless they chose to. This fortunately I prevented but he made it known in a different way. Among gentlemen let me cut me off the bag, when ungraciously he pronounced himself to me to be a Roman Catholic, and opposed to compulsory education in any form. That is the bottom secret of the whole thing.

You of course are familiar with the facts of Glass having shaved the head of an Indian Shaman for witchcraft. His being forced to blanket. His imprisonment —

ment at hard labor until said fine was paid, and the notification given him by glass himself in the presence of the assembled tribes that he intended to banish him. Well!! the old camp doctor "took his chances" and refused to pay his fine, when lo and behold, in the depth of his prison gloom he heard the refrain from the ever popular opera "I am the Captain of the Pinapore."

This chap resplendent in a brand new uniform covered like Goodles all over with buttons and good lace, told me that Glass had no business to leave him such a legacy and that he did not thank him for it. Just thought of such an expression. Bah!! it makes me ill, and blush for the American Navy.

He furthermore disapproves of the policy of appointing Indian policeman and announces his intention of discharging

them all on his return. I wait not for the faith
that the Adams is shortly expected here to relieve
the Wachusett. I really should feel a great
sense of uneasiness if this addebrained
Chap was allowed a free lance in these
waters.

There is but one thing to do and that is to
press upon Secretary Folger the necessity
of taking a decided stand, and have it
settled at Washington, so that we shall
not be at the mercy of every rascumpoop,
who happens to stroll here for a brief period
on the grante deck of a man of war.

You have now the whole case, pick
your pluit and go in and win.

Sincerely Yours
Wm Governor Morris

I am informed from Washington that much opposition is being had "in certain quarters" to the publication of my report.

My correspondent does not however intimate from what particular quarter the opposition comes. Do you know?

It is pretty rough on me often all the time. I wrote and expense incurred in the preparation of that volume, to have it be perished in the archives of the Treasury Department.

Dear Sir & Brother,

We are still inactive in the school, and are not in shape to commence until we are directed what to do. At this moment, in early morning the sun not having risen we are disturbed by drunken Navajos in the boys' bed room. Some of them got in yesterday evening and others during the night. None of the better class of parents will send their children, and yet Mr. Eastman is angry each day saying the school in operation is a great protection. We had not intended to take but a few days vacation, believing those days would bring an Inspector and possibly yourself. then we would be in shape to run school until July,

The Narajis come in and
speak of the situation here in this
way. Many of them seem quite sen-
sible to in their way. We do not sleep
our young men are going astray.
We have nothing but trouble. The Great-
Father is down on us. He sends us a
man we do not like. We ask the Father
to take him away. He will not turn
his ear to us. So our Agent is
Nas-ga-et-so. (big poison spider).
This whiskey is ruining our young men.

What shall we do? Mr Eastman is a
great temperance man. But the Narajis
do not respect him. No one believes his
word. Four good American men
are leaving here to day. The Mason
The Carpenter. The Engineer and
the Storekeeper. Each one with the testi-
mony of Mr Eastman as being a very
bad man. The lower story of the building
is not plastered. no casing of the windows
or doors. We are at your service, if you

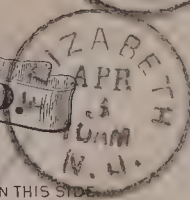

take the same steps toward these people that you did at Mogpie. There is no reason why we should have school. The Mogpie people, however loved and respected Mr Sullivan very much while the people love and abhor Mr Eastman. We are ~~not~~ severely disappointed in ^{not} hearing from any of you. Mr Perkins Willie, baby and Lattie are all well. We looked for you every day last month and did not hear one word from any of you. We will not abandon our work. you will find us at our Post and ready for duty, unless the whiskey drives us out. We did not rest much are not likely to until the eleven bottles brought in yesterday is gone. It requires very little whiskey to make the Navajos drunk.

Sincerely.

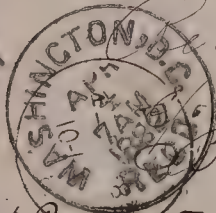

Mrs. J. D Perkins.

Dear Sir:

The Alexander Mission Sunday School 1489 King St, connected with Dr. John Hall's church desires some information about domestic missionary work.

I have been requested to communicate with you, to ask you to come and talk to us on Sunday afternoon Apl 9th, if possible. Mr John Sinclair suggested that we invite you to come. We are considering the field to which we shall send our contributions, and before deciding we would like

to hear from you.

I called at the Presbyterian Mission House, - but you were not in, so at the suggestion of Mr. Kendall I write.

If April 9th is not convenient please select your own time. The reason I selected that day was because our teacher's meeting will probably be held during next week. We desire to hear about fields of which you have personal knowledge.

Rev. Sheldon Jackson D.D.

Dear Sir,

I wrote you a few days ago, and, although I have little new to communicate, I feel like writing again. Our affairs on the Reservation are in a somewhat precarious condition, & of course, our school is liable to be affected by the result. The Indians had a "talk" to-day, in regard to whether they would remain on the Reservation or leave. They are rather expecting a new agent soon, and have determined to remain a while longer for his coming, to see if there is a prospect of any thing better for them in the future than in the past. Our Special Agent is still at Elko. The Indians declare if they do not get something more to eat, they will leave,

that they will not put in a crop. Some of them say they have worked hard for three years, and have never received any pay for it, and much of the time have been half starved. Many of the young men talk of going off and working for white men, for which they can get good pay. Besides there has been so much sickness among the Indians, and so many deaths, that it is a frequent remark among them, that "Duck Valley is no good place for Indians." Unless prevented many will doubtless leave, but the majority of those now here, if they receive food and proper encouragement, will remain and put in a crop. Only about two hundred and fifty all told have been living here since we came. I do not think there are forty children of school age on the Reservation now. Our school has

suffered some decrease, the effect of a combination of causes. Two have died, and others are sick, and we think, That the superstitious ones are working on the fears of our patrons to prevent their sending. Others have moved across the river and the present high water is a hindrance. The children all seem to love to come to school, and if they were well and not prevented, I think all that have been coming would continue.

The father of two of our children died this week, and their friends were about taking them away from the Reservation, but have consented to let them remain a while longer. One, Elegant Price, about 12, is the boy of our hope, and his sister Ella Price, our favorite girl. We shall be very sorry to lose them, and I think it will be very much against

Their wish. I wish to send you a specimen of Elegants writing. He has received no drill in penmanship but has just "picked it up" as several others have done. He would be a good boy to send to Carlisle, but at present this need not be thought of.

I have written this to keep you posted in the situation here. It is not among the impossibilities that our school may be broken up, but if the new agent or the special Agent should come soon and deal prudently in the matter we think we shall be able to report 15 or 20 for this quarter, but not probably more. If anything noteworthy occur I will write. Who is J. B. Mitchell? Is he the nominee of the Board? I suspect there is wire pulling to postpone his confirmation, so as to get him out of the way, and put in some favorite politician. We have received our checks for last quarter. No letter from you since you went to New York.

Yours &c. Jas. H. Willson.

Dear Brother:

When a letter recently rec'd from
H. W. Q. A. Kainer, I received directions that complaints
if not charges have been preferred against me, by one
or more of my teachers. Now I must tell you, as the
only person in New York whom I know to be my true
friend, to see that justice is done all parties. And if
charges are preferred, please demand a most thorough & search-
ing investigation. Rest assured that the closest scrutiny
will prove that I have been true to the trust which you
imposed in me. And that you may know how the Chris-
tian people of Albuquerque regard me, I have my letter
set in and out of the school. I will inform you that I
was last week ordained an Elder of the Presb. Evangelical
Church, of which Rev. W. C. McManis is Pastor.

I suppose that if the root of the trouble were to
be reached, it would show that it all arose from jealousy

among the teachers, And I do not want to be made
to suffer for what I cannot help.

So far as the positions of the teachers in the
school are concerned, the following arrangement would
soon remove all difficulties - With the exception of
Miss Welch. First, Appoint Miss May Child who
is now one of the teachers to the position of Wharton
(Miss Phillips has resigned). Appoint Miss Merritt
And as assistant to Miss Shields in the school
room, in place of Miss Child. Miss Child had
charge of the advanced classes during the nine
months that Miss Shields was absent from the
school, and on the return of Miss Shields she was
expelled because Miss Child did not give the advanced
classes to her. Miss S. appealed to me, but the
circumstances were such that I could not in justice
to Miss A. take the classes from her - she having
taught them nine months while Miss S. had
taught them but four.

But I immediately set to work to adjust the
difficulty. First, I found that Miss Child would
accept the position of Wharton, resigned by Miss P.
Second, if I could succeed in having Miss A.

appointed, that would remove her from the school room and at the same time would place Miss S. in charge of the advanced classes - just what Miss S. desired. I, at once, wrote to Rev. A. Kendall, D. D., and recommended the matter to the Board. But the Board of A. Meis, does not seem disposed to help me. They, the Board, are willing to hold me responsible for any thing they should be disposed to help me. It seems at least, that my recommendations were not approved at the meeting of the Board on the 28th ult.

You see how easily this whole matter could be adjusted by the Board if they would only do it.

Miss Shields is to day, my enemy. But, if I could place her in charge of the advanced classes, all would be well with her.

Either Miss Shields, or her mother who has been here since last December, was evidently the cause of the letter which I rec'd from Mrs. Haines.

Now, in my opinion, there is not a more worthy lady, or one more competent to fill the position of ^{to} Matron, than Miss Guld.

I place these facts before you, in the hope that you will find time from your other duties

To see the members of the Board, and urge upon
them the necessity of making the necessary appoint-
ments at their next meeting. ^{It is} ~~the~~ ^{interests of}

Dear Brother in Christ,

As my husband is away on a visit to Ft. Simpson and Metlakatla, I will answer your note in his stead. Many thanks for the public documents and your report all of which are very interesting, yours especially so. I also received a package of books on domestic science &c. which I think you must have sent. They will prove quite useful accept my thanks for them also.

I am glad to hear that the house will be purchased. We expect to go to Juneau.

next June, the Lord permitting, where we will remain during the summer teaching the Indians who gather there from all tribes at that time; in the fall we expect to go to Tek-muk-senky, and erect a church building, living ourselves in an Indian house and holding meetings and school in the same building for the time being. I hope you and Mrs. Jackson will follow us with your prayers, for we shall need much grace and strength both spiritual and physical.

My husband went by canoe to Lk. Simpsom but hopes to return in one of the British steamers; his object in going was to obtain information which may be useful to him in the future. Were he at

home he would write with
Briton and my self in sending
love to yourself and Mrs. Jack-
son.

Yours sincerely
Emily G. Corlies.

Dr. Sheldon Jackson:

Sir:

I am authorized
to write and inquire if
it would be possible for
you to preach one, or
two sermons, on Home Mis-
sion work, in our church
on some Sabbath this
month?

We have even the organized
an Auxiliary of the Woman's
Home and Foreign Missionary
Society, of the Synod of Long

Island, and are anxious
for ^a more intelligent com-
prehension of the needs
in our own land.

Our pastor, Rev. Lewis
Lampman, entirely concurs
in this desire, and has
requested me to extend
to you a cordial welcome
to his pulpit, at your
earliest convenience.

Please answer as promptly
as possible, stating your
usual terms for such ser-
vices, as we wish to
make whatever arrange-
ment is customary.

Very respectfully.
(Miss) Florence H. McCormick
Corresponding Secretary.

My dear Mr. [illegible]

I have just received your letter of the 10th inst.

and am glad to hear that you are well.

I am writing you a few lines to let you know

I have been thinking of

but have been so busy
that I could not find time.

I have been very busy
with my work and have
not had time to write
you for some time. I
am well and hope you

most of the family
of course. I am sure to find it,
and if possibly in going to
the museum at the same
time I can look after
the young couple.
I shall then be home
before the time they have
been at home and have
nothing from the Museum
to get home.

I sincerely hope your
present will well please him
which I think he has to
make sure that he will
be happy about it. I have
now no more to write
from the Museum. I have
nothing to write. There is at

and some confusion - the
mail for these points being
sent by the Post Department
into the States & from such
the best way would be
to make this office the dis-
tributing office for the terri-
tory. Then let the offices of
Whitson (which is already es-
tablished as a P.O., the papers
being sent at this office), Kl-
amath & Jackson be inclu-
ed in one mail route, start-
ing from being Whang. I have
inquired concerning the ter-
ritory at it and the mail
can be carried by road to
these three points from there
on. It cannot be done, really,

I would like to have the same
 place for month. I wish to
 have a place to come, often
 to stay at for rest. I
 think that long & in win-
 ter I might trip would re-
 quire a crew of at least
 three men. The trip would
 be paid by the owner
 of the canoe. The most serious con-
 sideration for this is
 10 or 15 dollars a trip & it is
 hard. This would leave
 small enough margin for
 food & water. The trip would
 be for \$40.00 or \$100.00 for
 a season. As I will have
 all the business to do at
 my rate in my business

along this amount I might
be able to bid for the interest
sufficiently as Mrs. T. is now
not here. But I will not
take the trouble & responsibility
without a margin of at
least fifteen dollars a month.
I send a bid which you
may use if you see fit. I have
the amount blank for you
to fill. But I will not fill
it as the \$1000 is a small
amount. I make nothing or
next to nothing except as
I am able to pay my
expenses. I make it \$1000
if you think it will be of
use. I am not sure,
but I am sure it will be of

that I would like to have
a copy of your paper to my
house to be the first to
see it. I am sure
that your paper would
be as good as any.

I am glad that
the Hy. Soc. will have the
new one.

I will describe the
little book of children's
songs & make it as plain as
possible that the book may
not need revision. It would
be best if the people would
be sent to it.

You will have
to write on the subject
of the book by next week.

I am about my duties
 at the college. While I have been
 better prepared than the
 majority of ordinary
 men for the work of Liberia
 I am willing to have a
 fully educated man assist
 me, provided such a one
 can be found soon pro-
 vided I can get Walter to
 succeed Dr. Randall in the
 college. I am not a bit
 sure of this, but I am
 sure that the Board will not
 hesitate then it is getting
 the next place to be filled
 in the school I think it
 would rather have you
 than the other. I am

more liberal & more
as the children were to be
educated. With his money
spending & educating for
he would write the Henry
Hemphill & Baker in a large
furnishing new Christian
instead of trustful houses.
The Hemphill & Hemphill are
wonder & eager to know these
of the come have a mission
ary. Walter has been married
to Mary. Mr. Scott will
write you concerning him.
I made a slight mistake in
my former letter. I said he
had been admitted to the bar.
I have learned since from
him that when he was

perhaps by not doing so
as he has never offered
in support of his
exchange of his place.

Now as to what you can
do for him out of the
Union I shall write
him on the subject by this
mail. What a charming
happy affectionate trio
you have! I wish I could!

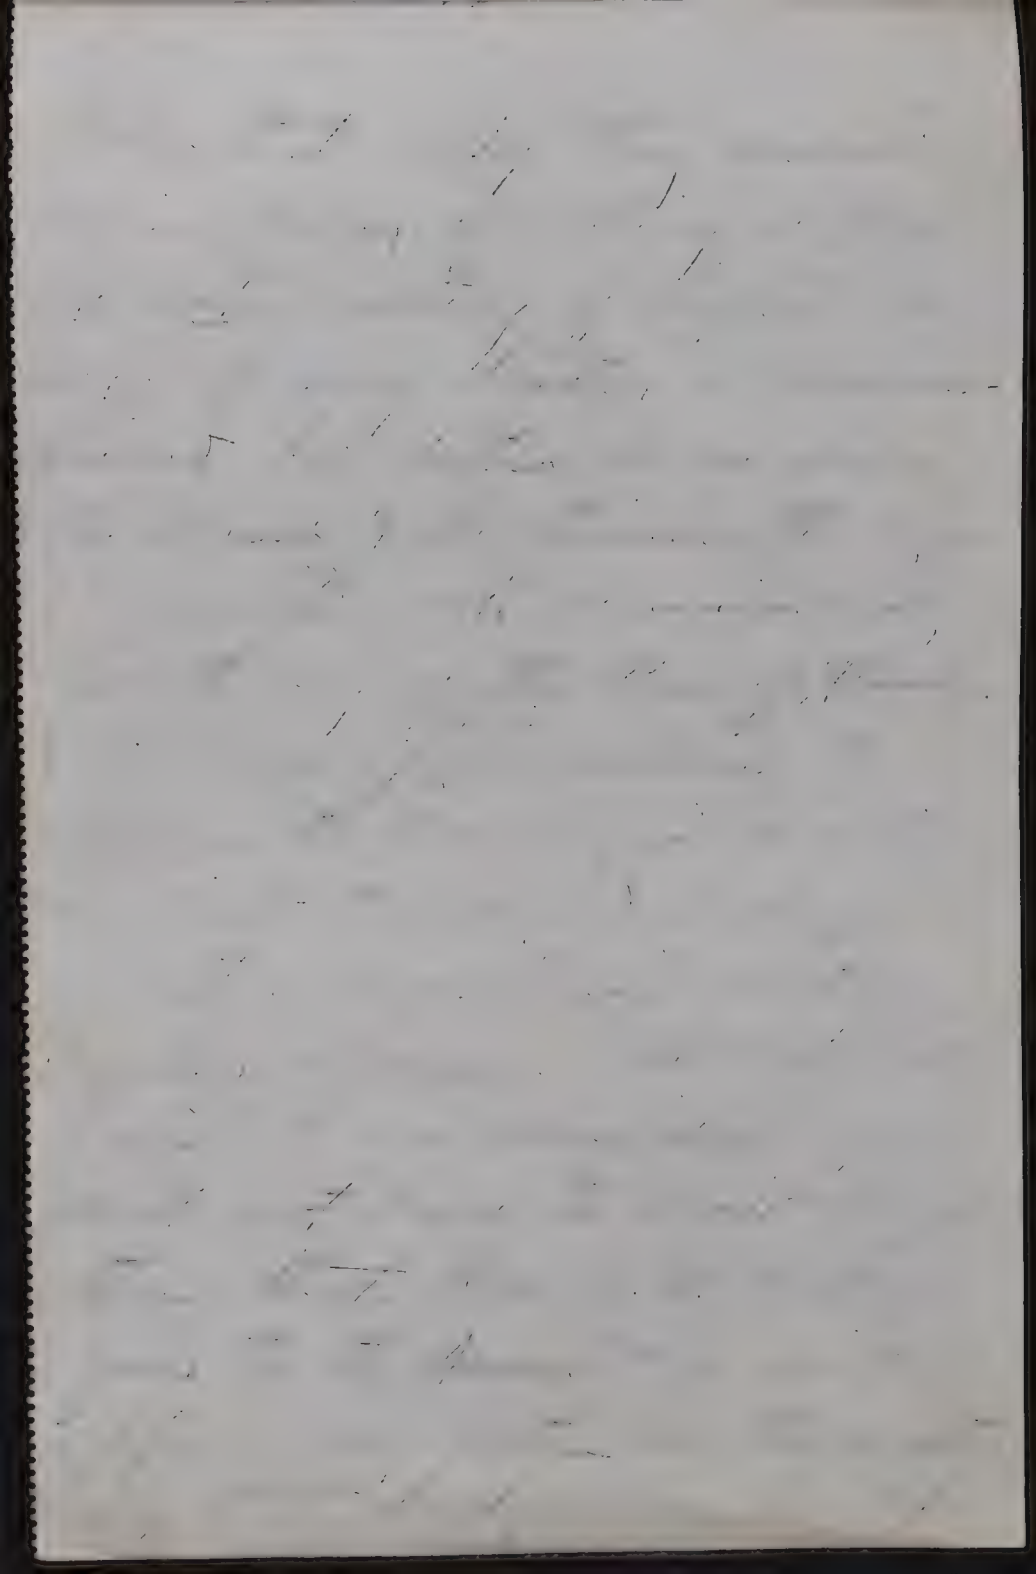

He has proposed his
qualified services to both
of them with some success
way. He is in the sub-
ject by which he is doing
more of his mission.

The friends of your cause

He is a very good
man. I have known him
many years. He is going to be
1 by this date. He is P.M. of
the school - but is the official name
of the P.M. He is fixing up his
house. He is now 18. He is
to be supplied from the
school. That is the reason. He
will be a very good man

Wm. Sheldon Esq. New York City

P. O. Box 1738 New York City

Dear Sir:

I view of the unpleasant relations existing among the teachers in the Pueblo Boarding School, some of whom are antagonistic to me, not because of any violation of authority or neglect of duty on my part, but from purely selfish and jealous motives, I have the honor to enclose my Resignation, with this request that, if the Board refuse to appoint Miss May Auld, I be appointed vice Miss Phillips resigned, and Miss Mariette Wood as successor to Miss Auld to assist Miss Shields in the work of the school room. You present my Resignation to the Board and please its acceptance.

It remains now I must have associates who will co-operate with me in the work.

I have not asked the Board to make women as my friends, but by the resignation of Miss

Phillips: these vacancies actually exist. And if the Board fail to appoint Meissner, Auld and Wood whom I have recommended for the respective positions, I shall feel that they ignore me in a privilege which has always been accorded me as Superintendent of Schools in the States, with which I was formerly connected.

In appointing those whom I recommend, the Board manifest its appreciation of my services. And, *Vice versa*?

There has never been a time when, - outside of the internal vexations and perplexities - I felt as much encouraged in my work as I do at present.

The school itself is in a most flourishing condition. All external opposition has been overcome - or forced to slumber. The Jesuit Fathers are held in check by public opinion, And we have the full confidence of the Indian parents as well as that of the children.

After persistent effort and great personal expense, I have the satisfaction of knowing that a handsome and commodious building will be erected here this summer for the Indian school;

We raised here in Albuquerque, by private subscription, the sum of \$4500, with which to purchase the necessary land for the school. The land selected is one mile east of our present location, and one and a half miles north of the depot. The location is as good as any in the valley.

By the way, Gov. Stone recently acknowledged in a conversation with me, that he might have judged you wrongfully.

Permit me to confide the information to you and you only! which ^{is} written on the 2^d of the paper enclosed. You will observe from this, that if I am continued in this office that the position of Weston will in the paper on the 11th be bound to occupy under the proposed new location.

Mr. Weiss has not appointed. I want to accompany her home in May.

I must therefore ask you in the event of our release from the school: that you have Mr. C. F. Eaton send both Weiss, Anna and myself, each a half fare, permit to Cincinnati, O.

over the following R. R. & A. T. & S. R. to Kansas;
Mo. Pacific to St. Louis. C. & M. to Cincinnati;

Also have him send a Half fare permit to
Mr. & Mrs. Helbig to Dofka.

When Mr. & Mrs. Helbig consented to ac-
company me to the Boarding school as
helpers in the work, I promised them that
in case I left before the close of the year
that I would pay their expenses Home; And
if they insist on leaving with me, I must
make good my promise. But I will pay the
half fare out of my own private funds. Not
from funds supplied by the Board.

"May the Lords will be done, is the
earnest prayer of

Your Bro. in the Master's work,

Dear Brother
Yours of March 6th
was received this
mail. I confess I
feel greatly annoyed
about my letter
not being published,
as I had written to
so many referring them
to the Paper for full
particulars. Now I
am getting letters
asking why it was
refused. If you had
returned it to me
I would have cop-
ied it & struck off
some "weeding out"

Copies & sent to these
persons. But it is
too late to do anything
now. It now, I have
read your letter to
Mr. Young today.
I am glad to hear
you are going to house
keeping in New York.
It will be so much
more pleasant for
both you & Mrs Jackson
for you to be at home.
Our friends
are with us at last.
They are tired after
their long journey.
But full of zeal
& hope for their work.
Our next married
people are well &
happy. Both at work.
There is nothing

special to write this
mail, & as I am
exceedingly busy
I will have to close.
Much Love to ^{Mrs J F} your
self.

Very Truly

Salt Lake City, April 13-82

My Dear Dr. Wendall:

How are you? Busy as a
thousand bees, undoubtedly, closing up
the affairs of the year for the meeting
of the Gen. Assembly. Well, Doctor,
please don't try to do too much in
one day. I want you to live thirty or
forty years yet.

I mail with this an article on
our Spring meeting of Presbytery which
I hope will be in ample time for
the May number of "Home Missions"
By the way, that is a most capital
paper in everything but the name.
And I do think that is abominable
for a paper. How rejoiced I was
when I found that the Board had
come into possession of such an
important agency in carrying on its

work, for which let the bears and ever-
 gatic "Little Chief", as the Alaskans
 called him, have hearty thanks. You can
 see how pinched I am financially when
 I say that I have not yet since Jan 1st
 been able to remitt a dollar to pay for
 my subscription. But I hope the good
 Lord will help me do so soon and
 to send you a good club of subscribers.
 No new interesting paper comes
 to my "Study".

I want to thank you for a copy
 of your address before the Alumni
 of Hamilton College last summer.
 I read it with exceeding interest & profit.
 It puts some important ideas about
 colleges and college education better
 than I have ever seen them put else-
 where. I am specially interested in
 such matters now, for we're begin-
 ning to organize a college here.
 Doctor. things are going

are fast growing in the Territory and especially in this city. You will see from my article in Presbyterian that our Union work is fast booming in the Territory. In this city, the outlook is grand & encouraging from every standpoint. If we were rid of debt our church could be self-supporting at once.

There is more activity in real estate here and in building than has ever been known before. The Denver & Rio Grande is pushing towards them and laying track between here and about 50 miles south.

The old Polygamists are squirming lively. They feel their time is short. At their annual Conference which ended last Sabbath, they showed their teeth and abused & threatened everybody. Among other

things they "counselled" the Saints not to trade with the Gentiles. The Herald and the News, both Mormon papers, echoed the advice of the priesthood. The Gentiles have informed them that there are two sides to that game, and the Mormon News beginning to see they have "put their foot in it". For the Gentile business men have begun to withdraw their advertisements from the Mormon papers. And last night the News began to "squal" & apologize for some of its editorials!!

The Rev. Wm. Hillson left Utah on Tuesday for Kansas, taking his commission to the Presbytery of Pittsburgh. Knowles is still at Ogden, though his commission expired Feb. 14. Nothing was said about his case at Presbytery. Suppose he is staying at Ogden until his successor is secured. Ogden is pushing ahead so fast that there ought to be the liveliest kind of a man there, Mr. Arnold of Evanston, and Mr. Ryle go to the assembly. Give my best

regards to Mrs. Wendell. Affectionately yours R. G. McNeal

Rev Sheldon Jackson D.D.

[illegible]

... which would be enough
to save the world and the whole Christ and
at the time as usual not to show you
or fine years. I look upon his letter as a direct
invitation to pay from the Lord of God. I am
to pay the debt, not what you owe a
dollar of debt. I am not prepared to start a
thousand for all sorts of things. But would like
to see such a work as this which is doing
and I am sure the thousands of men and women
who are suffering from the Lord's service for
the world are a great deal more than
the little things which you are doing
and which are the first of many others
you are doing. I am sure that the entire
world of such things and the whole world
at the end of the main line will not
appear then down to battle with the whole
world. I feel that as these things are
done, the world will be more
convinced with this great battle and
the progress for them is more
than ever and a great battle will be
done in the future. I am sure
that the whole world will be
more convinced and the whole world
will be more convinced.

Fort Defiance A.T. 4. 13. 1882.
Per S. Jackson D.D.

Your letter of 4th and 3rd received. We were very much surprised to hear that Mr E had flour, or any thing else, knowing that he had been buying flour from the trader - Mr Hiatt - This false as it is, is no worse than all the transactions here under Mr E's management. We cannot manage a school under such dishonest and trying circumstances. Mr E would never allow us to draw rations for more than the average number of children, and this amt has never been sufficient to keep the children comfortable. Our living has cost us three times what it should have done on this account. A parent ^{or both} would some times come as far distant as Canon De Shelley, and he would not allow us to give them a cup of Coffee unless

we furnished it ourselves, which we
never failed to do. No day from the
commencement of school has passed
but what sufficient reason has existed
for closing school. The supplies were
never given in such a way as to facilitate
our work. Coffee unbrowned not given until
time to eat. flour not given until time
bread should be on the table. We always
had supplies ^{of our own} enough on hand to
bridge over these deficiencies. But finan-
cially we fail, to continue is beyond
our ability. Do not be surprised if you
hear of another "Meeker" affair.

And if we are not left to explain just
how the trouble began. Let me now say
that every day has seen causes suffi-
cient to raise the anger and develop
the worst features ~~and~~ and an Indian could
be capable of. The Mason, Carpenter, Em-
sinner and Store keeper, have all gone a
week ago. If we had money enough I doubt

whether we could summon sufficient
patience or grace to remain under the
severe yoke of bondage and tyranny
we have toiled and suffered under
ever since we have been so unspeakably
unfortunate as to be placed under a
man so lacking in every thing
good as Mr E. is. On the other
hand however our trials have
not been in vain at last. We have
been blessed in many ways, and
have enjoyed both heights and
depths of Gods tenderness and lov-
ing care, and been strengthened and
encouraged by His spirit, beyond what
we had even hoped for. Then too we have
been rejoiced again and again by
the aptness, willingness, obedience,
and affection of these Navajos. We
have aged ten years since we saw you.
There were five Indians quite drunk
day before yesterday on issue day, but no
bad conduct, as has been on other days.

^{In the matter}
^{of whiskey a-}
^{mong this}
^{people. Mr E}
^{has our opin-}
^{ionally, but it is}
^{his grabbing}
^{and taking}

^{barren and}
^{The corn will be}
^{our way. But we}
^{know that}
^{sometimes we}
^{are called to}
^{serve the Mas-}
^{ter by waiting.}
Mr E tells them now that if there is
any more misconduct that they must all
go to the Indian Territory. This he says is
a punishment for their misconduct.
In our opinion there ought to be an
effort made in behalf of these people
and that very soon. They deserve all that
can be done for them. Four or five
day schools should be given them, one
in Canon Delbelley, one at "Manuelito's"
home, and one at the town of Manuelito
on the Rail road. The Navajos go there a great
deal and would send their children to school
if they could. We learn of your being sick and
pressed with work with sympathy and
"fellow feeling". Our kind regards to Mrs &
the girls. Many thanks for your kind letter.
It was to us, as "Words fitly spoken, like apples
of gold in pictures of silver,"

Sincerely, Mrs. J. D Perkins.

Dear Brother,

Last Sabbath I found in
an envelope dropped in our collection
basket forty dollars, with a request
that the sum be forwarded to you
for the work in Alaska. No name
accompanied the money.

I therefore enclose herewith a draft

I send you a Copy of a letter sent from here by
the Indians to Agent Smith at Elko. It will
explain in part why the school is decreasing.
Some fifteen families have already left the Res-
ervation, - others are waiting a little, some to see
if they will get money due them which is said
to be at Elko, others for various reasons. A few
families will certainly remain, whether they put
in a crop or not. I think we may count on
about ten children remaining with us.
We have had so little for them to eat the past
few weeks, there has not been much encourage-
ment for them to stay. I certify to the fol-
lowing as a correct copy. The Indians wished
me to keep a copy.

Jas. H. Willson,

United States Indian Service
Western Shoshone Agency
April 13th 1882

Major Arden K. Smith,

Special U.S. Indian Agent.

Sir, - Captain Sam says, -
my boys help me I talk a little. We think we
government son. We want Indian agent sent
to Luck Valley, - he no stay here, - he stay in Elko
all the time. John How was appointed agent four
years ago. He no come here in spring time to see about the work.

He no make the pay straight. Just now Indians want to see the Indian Agent, want him come quick. Indians don't know what to do now, - they want to be in a hurry to work.

Some Indians gone away - more Indians go pretty quick. Indians want beef, bacon, beans, hominy, rice, sugar, & baking powder. Every thing in the store here all gone. Indians no want John How. Indians want a good agent. Some Indians gone. May be so if new agent comes, and is a good man Indians come back. If he a bad agent like John How, they no come back. May be Indians all leave. Indians think Smith help John How bad. Indians say so.

George Washington says, - This morning I let Butcher Knife Jack [the teamster] have four sacks of barley, and I was to charge it to the agent. Every year I let the team have barley and hay. Agent say - Government pay me. He no pay yet. This spring I want some money. If I get no money I no work well. If I get money for what I sell, I can buy what I want. I owe some money to Harry Boyle, to Harris, and Ross, and the store at Mountain City. I feel bad because I got no money to pay.

Capt Charley says, — Smith my friend,
You tell me to work. I got nothing to
eat. I can't make a ranche myself. I
want you to show this paper to the new a-
gent. When he comes maybe he'll think
I've got a ranche. I've got no ranche,
I'll no work this spring, just now I'm go-
ing to hunt. If the new agent comes and don't
see me here, if you show him this letter
then he'll not be mad at me. I feel
bad because so many Indians get
sick and die here. When beef is gone
I feel bad. I feel bad because I can't
work Babb's ranche. My Indians worked
Babb's ranche last year. This year we have
no ranche to work. I buy some things
at Mountain City, and some things at Silver
Creek and some at other places. Agent
How told me, when he got money he would
pay me, and then I could pay for what I
would get. He never paid me and I can't
pay. I feel bad. How told me I'd get po-
lice money. Agent How told me I'd get
money for barley and hay for government team
for two years. I've got no pay yet.

I would like Mr. How to make
 every thing square. I want
 you my friend and Mr. How, to make
 it all straight. I no see money
 for so long a time. I feel sick, bad.
 I feel so bad I can't work this year
 I want - this new Indian agent when he
 comes to do things straight so as to
 make me feel well. When John How
 come here, he no want any Indian
 chief to talk. I no want it the same
 way when the new Indian Agent comes.
 I want it the other way. I want the
 agent to talk with the chief when he comes
 When Capt. Sam. want to talk Mr. How no let
 him, - keep him away. This makes all the
 Indians feel bad. They all want to go
 away every year

Dear Sir, I have received no letter from
you yet. Government team start-
ed two days ago for bacon, beans, & baking
^{salt}~~powder~~. It is uncertain whether he
can get through.

We have not heard whether Mitchell is con-
firmed as agent or not. The first letter I
received from him I inferred he was a
Presbyterian, nominated by the Board. The
second letter partakes more of the tone of a
Methodist. He proposes to bring as Clerk,
Prof. Thompson, a preacher. I surmise,
but perhaps should not say, that he did
not know till I wrote to him that we
were sent here by the Presbyterians, and
that he purposed to make a clean sweep
of employes, teachers and all, and bring
in, instead, several families of his
own church, whatever it is. Of
course, if he is a Presbyterian it is
all right. But if he is a Method-
ist or something else, how will it
affect our mission here?

But the mail is waiting and I must
close.

Yours &c

Gentlemen.

Some months ago
you published some articles from Dr.
Sheldon Jackson's book on Alaska.

I want the book very much but
cannot tell when it is published.

Will you be so kind as to send
the book when published as soon as
possible and greatly oblige.

One of your readers.

Miss M. E. Gardner.

P.S. If you could name the price of the
book it would enable me to get it much
easier.

Dear Sir,

Your letter of recent date stating that there was flour here for sale has amused us very much as there is ^{no} flour in the Agency except ^{what is} borrowed from the trader.

We commenced school again today with an attendance of twenty seven. Mr E is cross and seems determined to make it as hard for us as possible. He says he has all supplies at the Rail Road. I hope he has. But we are so much accustomed to his false statements that we are not surprised at any thing we hear. This day is cold and disagreeable with considerable snow on the ground, and half the school in their bare feet. We have had no stockings since Christmas and only one pair each then Mr E does not want us in his way, and if he is to be Agent how you not

use us some where else, He is
now anxious to have his son
seventeen come into the school as a
teacher and I guess we will have to
do it to get along at all. He is a good
boy and will be of use to us I think, but
unfortunately every one seems to dislike
Mr E so much, that no one respects the
name I do not think the dislike is
altogether Mr E's fault, but he seems unable
to overcome the strong and bitter feeling
that was against him when he returned now
nearly ten months ago. There is a good deal
of whiskey about, too much for softly, but
they are not so boisterous with it, and
keep themselves a little out of sight.

Is there no way of helping these people?
They seem so deserving as a whole. I
am sure you would be glad to see how
well they try to do in school, and all
around the house. We will now have
a Navajo for Cook, Landress, Matron,

Asst mation, Steamstres, and
wood hauler, - providing we get
the team again - To be sure I over-
see all the work and Mr Perkins too,
while Willie and Fattie are not idle, but
we are very willing to make great effort;
Do not be surprised if you hear of us closing
school again at any time, for we never know
what will be our next encounter. The smaller
the matter the greater the row. He now insists
that we must have a door keeper and admit
none but children aged between six and six-
teen. This troubles us some what. Our Landrea
has her baby in the cradle, it annoys no
one, and does not hinder her from work
much and she has been in our em-
ploy ever since we come here, most of
the time. We cannot come down to the school
age as it is the East - without cutting off
some very promising children.

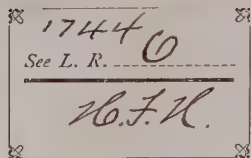

The Navajo tell us every day that they will
wait until Kears returns if he is not

Agent, they intend to run Mr E off. if
he does not go they intend to kill him.

Now this is all wrong, but what if they do
it. We may all share with him if
trouble commences. I some times think
we are unwise to commence school,
and again. The Promises are such,
and the opportunities for giving
the cup of cold water in the Master's
name ^{so great} that we could not remain
idle. This is a wonderful people, and
great things may yet be seen of them,
as they get out of the spiritual dark-
ness in which they have lived. We have
had such a joyous day. We were so glad to
see the children, and they seemed happy
too.

Sincerely,

Mrs J. D. Perkins.

Dear Sir:

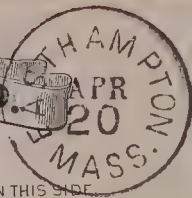

Your letter of the 17th inst., and the package of electrotypes for illustrating your address on Education in Alaska, came duly to hand.

The addresses delivered at the recent meeting of the Department of Superintendence have, nearly all, been received and the Proceedings will very soon be ready for the printer. Your idea to strike off 500 extra copies of your address is a good one and I think can be carried out.

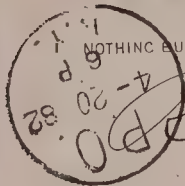

The

electrotypes will be returned to you when
they have been used.

Dear Doctor Jackson,

I have received three pleasant letters from you by yesterday's steamer. It is now past ten at night, and I am not through with my official correspondence. Am very tired and can only say a word.

The building you refer to, is not available for the purposes you suggest and I have reported the case to the Secretary. It is required for the use of the Navy.

It will afford me pleasure to act in conjunction with Messrs Austin and Brady in selecting a site for your home near here. I turned the matter over with Brady today, and Messrs the Commissioner has located there is any service of you desire it.

I have contemplated having 100 boys or
more in your Institution. 160 acres of land
is not too large a piece of ground, for
them to occupy. You might in a great
measure thus make the home self
supporting. But more of this anon. I
must quit tonight.

My best regards to Genl Eaton
when you see him.

Dr. Jackson,

My Dear Sir and Friends,

WE opened
school again on the 17th of
this month with thirty scholars.
There is as much whiskey
among the Navajos as ever
but a little more quiet here
at the Agency than when we
closed school.

On the first of this month the
Engineer, Carpenter, Store-keeper
and Mason left Mr. Eastman's
employ, claiming they could
not get along with him.
and to day his two interpreters
after some trouble quit.

The facts are Mr. Eastman has trouble with all he deals with consequently has no friends in the country.

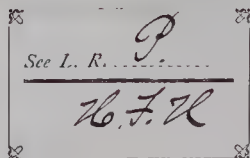

With us, he is what we call hard to get on with, his last orders are to take no scholars only children of school age, (between 8 and 16 years) which at the present time it is impossible for us to do, as some of our most promising scholars are between the ages of 20, and 30. Mr. Eastman also refuses to allow our Wavaps help the usual rations allowed to scholars, unless so directed by the Commission, although our help is all Wavaps and strictly pupils causing us much care and anxiety, this additional labor on our

part is performed cheerfully
and willingly by us in the
interest of our "Board" and
not to save the government
the expense of feeding their
worthy pupils.

It is apparent to us, that
he is putting down the school
on account of shortness of
supplies, there being very
little flour here.

With kindest regards of
myself and family to your-
self and family, I remain

My dear Brother

Why do I not hear from you, or from some member of the Board. Financially I am bearing a little heavier burden than I should, & it is a little trying not to be able to hear anything whatever. When you were about starting to Alaska you wrote me encouragingly to go on with the house according to my plan, & upon your return to send you an itemized bill, & if the Ladies had not already met the expense you would raise it. Mrs. Haines also wrote me an encouraging letter

relative to the matter, since
which I have not heard a
word. Have not heard one
word from you since
some time in Jan. nor from
the Board since long before
that. Now it has been a
long tedious, & at times almost
disheartening work to erect
this building without having
the financial burden to
bear. It has been so hard
to get laborers, & then not
to know whence the where-
withal was to come with
which to pay them. Had I
not expected the money.
I should have dropped
the work until I had cash
in hand. Then again there
is the matter of my brother
for the time that he & his
wife were commissioned

I have had to bridge them over heat I could, yet they have suffered the greatest embarrassment, & have lost confidence in the Board to such a degree that I can scarcely encourage them in any respect.

My sister-in-law. will return to Colo. this Summer & I suppose that my brother will follow as soon as he gets the money.

you may think this a severe complaint, but is it right for the Board to treat her employees thus?

Can you wonder that even christians lose confidence?

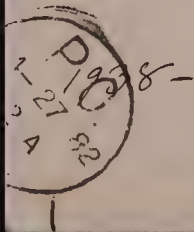

The Board can - if need be borrow a little money to bridge over a difficult pass, but sometimes this

is not in the power of a
mission teacher to do, & in
an isolated place like this
it leaves us sore perplexed
at times. I confess that
I have been tempted to send
in my resignation more
than once - feeling doubtful
as to the acceptability of my
services to the Board. Our
house will soon be completed
in toto, but we cannot send
for furniture until we get
the money, & will not probably
be able to get it in here before
the fall, & shall have to continue
on the little borrowed stuff
as we have for more than a
year - thanks to kind neighbors.
May I not hear from you soon?

My Dear Sir.

The "Home Missions"
inclosing the "Alaska Bill" have
just come to hand forwarded
from Red Creek by George's mail -
this being the Senate Bill & passed
in December last.

We had received the Home Missions
and read it last night.

Of course I have not had
time to examine the "Bill" yet
I am very sorry even time to
inquire what its present status
is - I noticed a few days since
that a bill of somewhat similar
character had been reported
by the Senate committee on
Territories. It was too late
to be substituted for this.

I am very much surprised that I have
not yet seen you on these matters.

I will tell you frankly -

Heretofore I have been

somewhat useful to the Republi-
can party as a commissioner.

I have been much on the perstise

not asking anything for my-
self but trying to do my
duty. The day after Garfield
was elected Hon. John A. Bland
called to see Foster and
said you would be in time.

He was surprised for my heavy
work. I said nothing as
I know of - but perhaps I can
not do as a territorial judge
as which he indicated you
should have if I were
he told me he had filed
an application in the Atty
Gen's office. Then came the
election of Garfield and the close
work which followed and the

matter had faded almost out
of memory. Last Tuesday I recd
notice from Mr Camp to send
in my recommendations, and
I have them nearly ready.

They consist of endorsements by
a dozen or more judges, a large
number of Attorneys, and
county officials. Also the Pastors
of the churches. I do not ask
for appointment to any particular
territory, but leave that
an open question.

My Good wife is more than
half a Missionary, and she
has been hoping I would
be sent to Alaska.

Rev A Augustus Wood DD
our Pastor said to day as he
signed my endorsement "I hope
this means Alaska."

You see I am talking to
you frankly. And I wish
to say that I would not take

an appointment to Alaska
unless such appointment was
satisfactory to you: for I con-
sider that you have done so
much for Alaska by letting
spotlight in upon it, that you
have earned the right to say
who shall hold its offices and
lay the foundations of its
future institutions.

Should you wish to know
more of me I refer you to either
or all of the following gentlemen -

Rev A. A. Wood	Lyons
Hon F. W. Collins	" "
" L M Norton	Newark
" N. W. Ketting	Oswego
Judge C. C. Dwight	Auburn
" J. L. Angle	Rochester
" F. A. Macomber	" "
Rev Allen D. Dwyer	Red Creek

From what I have said you
 of course will understand that
 I am willing to take that judgment.
 I think I understood its status
 Twenty five years at the bar is a
 pretty good school. I am now
 50 years old. Hale and hearty.
 Wife four years younger and
 no children to prevent either of
 us from making ourselves
 useful.

Perhaps you will visit
 Auburn Sam next week. Its
 commencement then you know.
 Should you telegraph me and
 I will run over and meet
 you there.

Still events let me hear
 from you in reference to these
 matters.

Hoping I may.

I am Yours Very Truly.

John Foster.

Since writing the within I have looked
over the bill somewhat. I should not the
proviso on page 8. commencing at line
27. read

"And provided also: That the title to
the land embracing six hundred and forty
acres at each missionary station among
the Indian Tribes in said District with
the improvements thereon be ^{granted} confirmed and
established in the several religious societies
to which said missionary stations res-
pectively belong exempt from taxation
or any lien whatever so long as ~~the same~~
as the same shall be used for religious
or educational purposes."

It strikes me the
proviso is rather obscure as it stands
in the bill. Certainly the draftsman
must have meant a section of land
for each station. not a section for all
the stations collectively, and yet that is
the way it reads.

Yours

Forster
